Look out for the sleek-tongued varments that tell you the Advance is not the best machine in the market. Those that tell you falsehoods are not worthy of being called by any other name. The ADVANCE is guaranteed to do more and better work than any other machine in the market, and is the only machine on the Coast that has NEVER been replaced by other machines. Other dealers have offered new machines for an ADVANCE that has been run two years, and have given parties to understand they would give differences, but were told that the ADVANCE, after two years' run was still much better than old fogy machines, if they were new. And if the ADVANCE engine is not the best traction engine, why is it that I have sold TWELVE on the West Side, between Portland and Corvallis, this year?

AN IMPORTANT QUESTION

Among the important subjects to come be-

fore the constitutional convention at Oily me pia it is probable that the question as to the See the most important. Had washington been admitted as a state a dozen years ago the subject would have received little or no paintifion in her constitutional convention, but the commercial development of the territory have now appeared by show that The question constantly arises priyate proprietor, would have been left un firturbed, but such property in the hands e its worth will soon be mestimable Hence the private prop-leter will now sur render a privatege be formerly supposed be y-be asserted against corporations and the whose wealth would be immensely

mmercial purposes There is no question but the title to these vest in the state It has even ishes will be highest authority that the United States, being only the trustee, hold me the lands under the territorial condition st, as it were for the coming state oprietor of the territory, and migh bole of it to a foreign power But Studye Hill, in his luminous essay on the subject, published in The Original of Thursday last, shows that these principles tre well settled as to the legal status of these

Pirst—They belong to the state by virtue of its soccretary immediately upon its coming into the Union and i has absolute domain over and power of disposition of them no matter whether secupied by private individuals or unoccupied Second—That any grant of land by the I ultid States during the territorial condition of the country, covering any of these tide lands, confurs so title upon the grantee

Third—That ricarian or littoral proprie or so land fronting upon these tide lands have no rights in them which the state is in law, bound to respect First-They belong to the state by virtue of its

is left to the legislature it will be a litics of the state and furnish the material that will soon debauch the public conscience that will soon declared the legislature a merce-pary body, and will poison the fountains of law and of justice. The rightful power of the state over these lands should therefore be asserted by constitutional enactment Judge Hill's treatment of this subject is one of the most valuable parts of his great essay, nd the constitutional provisions he sug asts appear to be fully adequate to the con itions and requirements of the subject

DISTRESS FROM CROP FAILURE

Ex-Gov Moody, who has mingled with people east of the Cascades all the season and is well informed as to matters there thinks there will be actual distress in coun ties couth of the Commbia, including Wasco, Sherman, Gilliam Morrow, and parts of Umatilla because of the failure of and subject to freezing, and wheat is winter and subject to freezing, and wheat is winter killed, it is on this account that spring wheat is there preferred Until the present season spring wheat has made good crops without fail. The cause of present distress is that the winter snow

able requirement from many parts of the in able requirement from many parts of the interior. Many districts of Eastern Washington have met the same misfortunes and from the same cause are complaining of the loss of crops. In some localities where wheel research of the same and the same the loss of crops. In some localities wheat was sown very atem the spring the recent rainfalls have done good and may cause a fair yie d. It can be said of all that country that crops have been unfailing hitherto and no such faithre of winter rains has hitherto been known. California has has hitherto been known. California has had repeated failures from drouth and so have the startes of the Northwest. And our Environ of the United States very favorably His the one partial failure known in a lithe crop history of the Par he Northwest.

The factor of human nature that proposes to get something for its money was well illustrated in the throng of people who went to Vancouver on the Fourth and individu ally and collectively tired themselves out in behalf of the Johnstown sufferers Very many persons who light that they were unable to contribute directly to the extent of able to contribute directly to the extent of even fifty cents to the regular relief first found themselves aquity able to attend a celebration that from first to last did not cost them less than five times that amount in response to the call of humanity. Based upon this well known factor in human na-ture, the Vancouver celebration was segar-iously plauned and well carried out. Thou sously planned and well carried out. Thou sands of people througed the streets park and parade grounds of the pretty military city well content to pay the fee demanded in the name of chaffly hundred, of them no doubt enduring the discomforts inseparable from such id by he pleasure in a spirit of martyrdom. Portland gave up her called the name of benevolence. Van couver caused hers to as ume mammoth proportions in the same cause. TO THE EDITOR OF THE CHEEGERIAN, July 2.
We are pleased to find the "Citizens' Law and Order League," supplement the efforts of the Onegonian in the direction of reforming our police service, yet it would seem as if ont police service, yet it would seem as if neither the Oreconian nor the Law and Order League, is striking in the right place.

It is true we have an incompetent chief of police, and a number of wholly unfit mer on the force. That they are there is not their famit, but rather that of the police com-

As long as the commissioners are nominated by one man, and that man a political "boss," be he Mr. Simon or any other "boss," just so long shall we have a comparatively worthless police force.
Just so long will policemen be ready to go blind to the interest of morality and good government, and see nothing save the interest of the boss and their own self-agreently good.

POLICE REFORM.

ests of the bose and their own self-ag-grandizement.

If some conscientious many gets on the force and attempts homestly to perform his duty, he soon finds that he is simply med-dlesome, and must shut his eyes to duty or take a bent quite out of the dity.

It is very apparent that police commis-sioners should be really in earnest in their desire to have the police enforce the laws and bring violaters of city ordinances, of whatever class or condition, to stern ac-count.

A police force will not be efficient beyond the constantly expressed demands of the community. Give us a fully competent, carnest, fear-less chief, and an active efficient police

hief, and an active, efficient poli and allow them to enter upon the

corps, and allow them to enter upon their duties. They will be opposed by all the worstelements of society, aided by a fairly respectable class of political partisans, while the moral, self-respecting, haw-abiding portion of the community will stand off and coldly look on.

It is very easy for the good, and eminent clies is composing the Law and Order League to meet and "resolve." They must do more than this, and keep at doing it. They must attend primaries. They must go in and work on elections—work for the selection and the election of fit men for municipal affects, and after such are chosen give them to know that they must perform their duty.

then to know that they must perform their duty.

If the Law and Order League will supplement the efforts of The Originals on this line permanent good will be accomptished. Will they do so? Not gt all likely. A snasmodic effort will be put forth.

The chief of police will be sacrificed, a few of the less politically active policemen will be made to "walk the plants," The police commissioners, and especially Mr. Simon, will get much praise for their carriest 147 poss to reform the police induminatation, the good people will soon become apathetic and things fall back again into the old familiar grooves, where they will move until the Law and Order Society meets again and resolves to support The Originals in its just demands for police felotin.

Will not out good citizens remember that "eternal vipilance" is no less the price of efficient administration of the laws them it is the price of liberty? CITIZEN NO. 2.
